CCP Release 4.0: Documentation

In conjunction with the introduction of CCP Release 4.0 we are providing today further documents to support your preparation activities for the release start.

CCP 4.0 User Guide

The CCP 4.0 User Guide offers a description of the browser-based graphical user interface (GUI) for CCP Release 4.0. The GUI comprises features for equities, fixed income products and derivatives. It also supports the changes that will come into effect with CCP Release 4.0. The GUI provides access to Gross Delivery Management for CCP.

CCP 4.0 Front End Installation Guide

The CCP 4.0 Front End Installation Guide addresses system administrators responsible for installation of the CCP front-end software and its configuration to the internal systems. The document provides a brief overview of the technical structure of CCP and detailed information about installation of the CCP front-end software kit. It also includes a step-by-step explanation of required planning and installation activities and verification processes.

CCP 4.0 Front End Operations Guide

The CCP 4.0 Front End Operations Guide describes the processes which are necessary for regular operation of the CCP software on the members' side. The document describes applications provided by Eurex Clearing AG for supporting system administrators who work with the CCP software.

The documents have been published in the Member Section of the Eurex website. To download your personal copy, please visit

www.eurexchange.com > Member Section > Releases > CCP 4.0 > Manuals.

Please be reminded that you will need your personal password to enter the Member Section (see Eurex circular 189/07).
