In their session on Wednesday, May 17, 2006, the Management Boards of the Eurex Exchanges decided to set the position limits for the **June 2006 contracts** in the Euro Fixed Income Futures as follows:

- **Euro-Buxl[®] Future (FGBX)** **20.000 contracts**
- **Euro-Bund Future (FGBL)** **80.000 contracts**
- **Euro-Bobl Future (FGBM)** **70.000 contracts**
- **Euro-Schatz Future (FGBS)** **55.000 contracts**

The limits apply only to **long positions** in the **front month contracts** of the products concerned, and will be valid from **June 1, 2006** until **June 8, 2006**. Positions must therefore be within the prescribed limits after close of trading on **May 31, 2006**.

The position limits will be monitored intraday by Eurex Market Supervision and the Trading Surveillance Office. Same-day position adjustments of the instruments should be made by using the **Trade Adjustment function (Open/Close Adjustment)** instead of the **Position Close Out**, in order to avoid such transactions being subject to late closing fees.

Proprietary trading positions and client positions will be considered separately. In relation to limit violations on client accounts, please note that, according to the Exchange Rules, no single client may hold or control an aggregate position which exceeds the defined position limit.
