**News Corporation: Possible Takeover Offer to the Shareholders
of British Sky Broadcasting Group PLC**

On June 15, 2010, the company News Corporation announced a possible takeover offer for all outstanding British Sky Broadcasting Group PLC shares, according to which shareholders are to receive 700 pence cash for each British Sky Broadcasting Group PLC share they hold.

Pursuant to the Contract Specifications for Futures Contracts, number 1.6.7 (7), and Options Contracts at Eurex Deutschland and Eurex Zürich, number 2.6.10.1 (7), positions in the respective contracts will be settled at theoretical fair value, if the transaction is regarded as having taken effect. For the calculation of the theoretical fair value, the following applies:

Basis for the calculation of the theoretical fair value will be the final offering price.

Implied Volatility:

For each options series, an implied volatility was fixed (see attachment). The same volatility shall apply for calls and puts. It is calculated from the average of the implied volatility of the daily settlement prices from the ten exchange days preceding the announcement of the offer (June 1, 2010 to June 14, 2010). Both the highest and lowest values were discarded.

For new contract months which might have to be introduced, implied volatility will be determined from linear interpolation between the preceding and the following contract month or, should this not be possible, from extrapolation of the preceding contract month.

Effective immediately, no more new series will be introduced for now for the Eurex options and the Eurex stock futures contract on British Sky Broadcasting Group PLC shares. Series without any open interest will be deleted in time.

The following dividend data were or will be applied for the determination of implied volatility, as the case may be:

Dividend amount in pence	Ex date
11.778	October 20, 2010
9.194	March 23, 2011
12.389	October 19, 2011

Options series with expiration June/July 2010 are not contained in the attachment. Those series will expire regularly before the potential conclusion of the transaction.

Interest Rate:

For calculation of the fair value, LIBOR interest rates apply.

If on the last trading day before the adjustment there is no open interest in the Eurex stock futures contract on British Sky Broadcasting Group PLC, trading in this contract will be set on "HALT" and finally discontinued.

We will keep you informed about the further procedure, whenever changes or new information in the course of the transaction will render this necessary.
