**Options****1. Adjustment of Strike Prices and Contract Sizes**

All existing strike prices will be multiplied by the R-factor.

The contract size will be divided by the R-factor.

The version number of the existing series will be increased by 1.

The adjustment also refers to existing positions in OTC Flexible Options.

**2. Exercises**

Generally, upon exercise of an adjusted series, cash payment will be made for the fractional part of the new contract size.

For adjusted series as of version 2, deviations in the delivery process might occur. In report RPTTA111 (All Active / Inactive Series), those parts of the contract size are displayed for which cash settlement takes place upon exercise of an adjusted series.

## Futures

### 1. Adjustment of Contract Size and Variation Margin

The adjustment will be done by means of the same R-factor as for the options.

To adjust the calculation of the Variation Margin of the following exchange trading day, settlement prices of the last cum trading day will be multiplied by the R-factor.

The new contract size will be calculated as follows:

$$\text{Contract size new} = \text{contract size old} / \text{R-factor}$$

All outstanding orders and quotes will be deleted after close of trading on the last cum trading day.

The adjustment also refers to existing positions in OTC Flexible Futures.

### 2. Introduction of a new Contract

A new contract on Mobistar shares will be introduced with standard contract size 100 and new product code MOSH.

The exact date of introduction will be published via the **Market Supervision Messages** window.

As soon as the new contract is available for trading and there are no more contract months with open interest in the original contract on Mobistar shares (MOSG), trading in this contract will be put on "HALT" and finally discontinued.

Furthermore, effective August 17, 2010, no more contract months will be introduced in the original contract (MOSG). All existing series with no open interest will be suspended from trading.

**Please note that if there is no open interest after close of trading on the last cum trading day in the original contract on Mobistar (MOSG) no adjustment will take place and no new contract will be introduced.**
