The Exchange Council of Eurex Deutschland and the Administrative Council of Eurex Zürich decided to amend number 3.6 of the Exchange Rules for Eurex Deutschland and Eurex Zürich (hereinafter referred to as "Exchange Rules") effective **August 14, 2006**.

The amendments to number 3.6 of the Exchange Rules as shown in the attached document describe the prerequisites for access to the electronic trading system and the associated duties valid for enterprises and individuals. In particular, the amendment emphasizes the duty of eligible individuals to ensure exclusive usage of personal user IDs and nondisclosure of passwords.

### 3.6 Application for Access Codes

Every Trading Participant is obliged to apply for a personal access code (user code), with the respective system entitlement, for every person who is to be authorized to effect options and futures transactions via the EDP system of the Eurex Exchanges (Exchange Traders) and for every person who needs access to the EDP system of the Eurex Exchanges for other reasons (system management, back-office responsibilities).

In order to access the electronic trading system, each company admitted as trading participant shall be assigned a user ID by the Board of Management; such ID may only be used by the respective company. Based on this user ID, the trading participant shall, upon written application, be assigned personal user IDs and codes for all persons supposed to get access to the system of the Eurex Exchanges. The Board of Management shall be notified in writing of the names of the persons as well as user IDs.

Exchange traders as well as other persons using the electronic trading system (e.g. back-office personnel, safety officers) may be allowed access to the electronic trading system. Personal user IDs and codes may only be used by the person they have been assigned to. Codes may not be disclosed to third persons.

Only admitted Exchange traders (Number 3.2) of the trading participant shall be permitted to use the system of the Eurex Exchanges to transfer orders for conclusion of futures and options transactions.
