Updated Sections of Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland and Eurex Zürich

Summary:

The Management Boards of the Eurex Exchanges decided to introduce new strike price intervals for French and Belgian equity options contracts in order to bring strike price models more into line with the conventions of the respective home markets.

The conversion will take place group-wise, effective **January 12, 13 and 14, 2010**.

French and Belgian Equity Options: New Strike Price Intervals

1. Procedure

As of January 12 and 13, 2010, for French equity options with expirations of up to five years (group ID FR11) and for Belgian equity options (group IDs BE11 and BE12) and as of January 14, 2010 for French equity options with expirations of up to two years, the newly generated expiration months will be introduced in accordance with the new strike price model.

For already existing expirations, additional strike prices will be generated which have been assigned the existing strike price intervals.

2. New Strike Price Intervals
