Eurex Trader Development Program

The Eurex Trader Development Program enters its fourth year in 2010 with significant improvements.

On January 1, 2010, Eurex will introduce the next generation of its Trader Development Program which will support traders new to Eurex markets by providing fee incentives as well as educational assistance.

The program continues to support Members who wish to take advantage of the growth opportunities and the large trader talent pools of emerging market countries. In addition, further regions will be included into the program.

Traders qualify for a potential of 300,000 contracts free of trading and clearing fees.

Under the program, proprietary trades executed by new Eurex traders via order routing systems will be exempt from trading and clearing fees.

Program Specifications

EUROPE	
Eligible countries	Bosnia and Herzegovina, Croatia, EU Member States, Russia, Serbia, Switzerland and Turkey
