## Fee Rebates and Revenue Sharing

**DMM Fees:** January 2, 2010 up to December 31, 2010. Total refund of trading and clearing fees for contracts traded on M accounts (order book and OTC) on a monthly basis.

**Revenue Sharing<sup>1</sup>:** **Scheme I: EUR 0.05** per contract of the total volume generated by OTC Block Trades in sector index futures is distributed on a quarterly basis to the Designated Market Makers according to the percentage rate based on the number of products where the quote obligations of Sector Index Futures have been fulfilled.

**Scheme II: EUR 0.03** per contract of the total volume generated by OTC Block Trades in sector index futures is distributed on a quarterly basis to the leading four Designated Market Makers. Eurex will evaluate on a monthly basis which Market Makers have complied with the Obligations of the Designated Market Maker Scheme for at least five Sector Index Futures. Based on the respective amount of traded contracts on M- or P-accounts in the order book, these four most active Market Makers (provided that the quote obligations of five products/month have been fulfilled) will be determined by the end of each quarter to participate in revenue sharing Scheme II according to the following ranking:

Market Maker Ranking	Revenue Sharing
1	45 %
2	30 %
3	15 %
4	10 %

Should less than four Market Makers have fulfilled the requirements for five products in the respective quarter, the stake of the revenue distributed will be reduced to 90 percent for three, 75 percent for two and 45 percent in case of just one Designated Market Maker.

<sup>1</sup> The maximum Revenue pool distribution amount is limited to / capped at EUR 250.000 per quarter.

    - of the minimum number of contracts specified in the quote obligations

  - b) we will give you the name of a manager who has the authorization and expertise necessary to make decisions and act as the coordinator in our firm, who will be available for Eurex with respect to this agreement;
