The updated Contract Specifications will be available on the Eurex website as of the ex date under:

**[www.eurexchange.com](http://www.eurexchange.com) > Documents > Rules and Regulations**

**Adjustment of ISIN:**

The ISIN of the Klépierre share (FR0000121964) will remain unchanged.

## **Procedure**

### **Determination of Adjustment Factor (R-Factor)**

The official closing auction price of the Klépierre share at Euronext Paris on November 6, 2008 will be the basis for determination of the R-factor.

The R-factor will be determined with eight decimal places. It is calculated in the following way:

$$R = ((\text{number of existing shares} / \text{number of new shares}) * (1 - (\text{issue price of new shares} / \text{closing auction price}))) + (\text{issue price of new shares} / \text{closing auction price})$$

$$R = ((6 / 7) * (1 - (15.00 / \text{closing auction price}))) + (15.00 / \text{closing auction price})$$

### **1. Adjustment of Contract Size and Variation Margin**

To adjust the calculation of the Variation Margin of the following day, settlement prices of the last cum trading day will be multiplied by the R-factor.

The new contract size will be calculated as follows:

$$\text{Contract size new} = \text{contract size old} / R\text{-factor}$$

All outstanding orders and quotes will be deleted after close of trading on the last cum trading day.

**2. Introduction of a new Contract**

A new contract on Klépierre will be introduced with standard contract size 100 and new product code LIFH.

The exact date of introduction will be published via the **Market Supervision Messages** window.

As soon as the new contract is available for trading and there are no more series with open interest in the original contracts on Klépierre (LIFF/LIFG ), trading in this contract will be put on HALT and discontinued.
