Options on the Dow Jones Italy Titans 30SM Index: Launch on September 6

Eurex is expanding its Italian derivatives segment as of September 6, adding options on the Dow Jones Italy Titans 30SM Index. This offer will make a liquid, cost-effective product range available, primarily for Italian investors. The range of products for institutional and private investors already includes options on the twelve most liquid Italian stocks and a futures contract on the Dow Jones Italy Titans 30SM Index.

Rudolf Ferscha, CEO of Eurex, said: “With the consistent expansion of our Italian derivatives segment, we are responding to demand for a cost-effective, transparent product line that is tailored to our clients’ needs. This move will enable us to attract new groups of customers for these products and the entire Eurex product range.” The possibility of cross-margining with European index products will also allow Eurex participants to realize additional cost advantages, added Ferscha.

Futures Contract Already with Large Market Share and Tight Spread

After expanding the Italian derivatives segment, Eurex has exhibited rising volumes and tight spreads since the beginning of the year in the trading of derivatives on Italian stocks and indexes. In the first seven months of the year, trading turnover for Italian stock options was up more than 36 percent on the same period one year prior. Just since the successful July 19 launch of the future on the Dow Jones Italy Titans 30SM Index, up to 29 percent of volumes are being generated by derivatives on Italian benchmark indexes, with very narrow bid/ask spreads. With record turnover of 6,401 contracts traded on August 17, Eurex achieved a 29.2 percent market share in the Italian index futures contract.

Active Market Making Across the Range

Building on the success in Dow Jones Italy Titans 30SM Index Futures, the market making will now be extended to include the corresponding index options. The impending discontinuation of the MIB 30 Index has put the spotlight on the two successor indexes: the Dow Jones Italy Titans 30SM Index and the S&P/MIB 40 Index. Consequently, market participants focus on rollover activities in particular. To facilitate this, Eurex Market Makers will intensify their quoting coverage for the September/December 2004 calendar spread in the Dow Jones Italy Titans 30SM Index Future.

Further information, such as detailed contract specifications, vendor product codes or an index guideline is available from our website, at www.eurexchange.com > Products.

In case of questions, please feel free to contact Tobias Ehinger on T +49-69-211-147 84, e-mail: Tobias.Ehinger@eurexchange.com.

New: Swiss Stock Options on Synthes Registered Shares

On September 20, 2004, Eurex will launch options as well as Low Exercise Price Options (LEPOs) on the registered shares of Synthes Inc. The contract specifications of the new Synthes N options are in line with the Swiss stock options already existing. They have a contract size of ten shares and are available with maturities of up to 24 months. The necessary underlying liquidity in the new product will be provided by professional Market Makers right from the start. Synthes registered shares will be included in the SMI® (Swiss Market Index) with effect from October 1, 2004.

From January through July 2004, the daily average volume traded in Swiss stock options on Eurex amounted to about 200,000 contracts – up five percent on the same period last year.

For more detailed information on the new stock option, please refer to the Eurex website at www.eurexchange.com > Products; or feel free to contact Dr. Weiwei Wang, T +49-69-211-172 62, e-mail: Weiwei.Wang@eurexchange.com.

„Exchange for Swaps“-Trading Facility Well Received by Market Participants

The new OTC trading facility “Exchange for Swaps” (EFS) has met with brisk demand from market participants, with no less than roughly 3.1 million interest rate futures contracts having been traded using this facility in the first eight months since its introduction. With a total number of more than 3,100 transactions, the average transaction size was approximately 1,000 contracts. Around 54 percent of contracts entered via the EFS facility were Euro-Bund Futures, with the Euro-Bobl and Euro-Schatz Futures contracts accounting for 41 and five percent, respectively.

On November 3, 2003, Eurex extended its service offer with the launch of the new OTC trading facility. It allows market participants to enter fixed income futures trades concluded off-exchange into the Eurex system, based on the evidence of a corresponding interest rate swap transaction denominated in euro. Both transactions are traded simultaneously and bilaterally among market participants outside the exchange system.

For any further information, please feel free to contact Nadja Urban, T +49-69-211-151 05, e-mail: Nadja.Urban@eurexchange.com.

New Record Volumes at Eurex US

Eurex US continued to post new record traded volumes in August. Daily trading volumes in U.S. Treasury Note Futures at Eurex US in August, up through August 20, averaged over 45,000 contracts – up almost 90 percent from the previous month (24,000). Open interest reached an all-time high of 68,500 contracts on August 5.

Eurex US introduced a new incentive program on July 12, designed to further enhance trading in U.S. Treasury Note Futures on the exchange. “We are thrilled that our customers are responding so enthusiastically to the incentive program, with increased levels of activity throughout,” said Satish Nandapurkar, CEO of Eurex US. “Liquidity on the screen has been excellent as the markets are consistently tight and deep. We are also seeing increased diversity of the order book with all trader groups participating.”

Eurex US Modifies Wholesale Trading Facility

Effective August 16, new thresholds will apply for the minimum number of contracts required for a trade to qualify as a wholesale trade at Eurex US. For futures on the 2, 5, and 10 year U.S. Treasury Notes the minimum size will be 1,000 contracts and for futures on the 30 year U.S. Treasury Bonds the minimum size will be 500 contracts. These changes will apply for trading during core U.S. trading hours (07:20 a.m. to 02:00 p.m. CST). Outside these hours, the minimum size for wholesale trades will be 250 contracts for all of the above products. These modifications are the result of extensive discussions with market participants to ensure that Eurex US wholesale trading practices best serve customers' needs.

“With these wholesale trading modifications we are aiming to further diversify the source of open interest on Eurex US,” said Satish Nandapurkar, CEO of Eurex US. “Simultaneously with our successful revenue sharing initiative focusing on proprietary trading, we are diversifying our order flow by further enhancing institutional end user interest with a more flexible wholesale trading facility. These modifications will continue to connect the cash, exchange-traded derivative, and OTC space in the U.S. Treasury markets globally”.

For further information, please feel free to contact the Eurex US Sales Team, T +1-312-544-1100, e-mail: info@eurexchange.com.

Eurex US Receives Approval from French Regulatory Authorities

French market participants can now trade directly on the new fully electronic U.S. futures and options exchange Eurex US, following approval from French regulatory authorities. The first two active members to start trading from France were Refco Securities S.A. and Tradition Securities and Futures S.A.

Eurex US was recognized as a foreign exchange pursuant to a Decree of the French Minister of Economy, Finance and Industry, after prior clearance by the **Autorité des Marchés Financiers (AMF)**¹. Market participants from 15 countries can now access Eurex US: Austria, Belgium, Denmark, Finland, France, Germany, Gibraltar, Ireland, Italy, Spain, Sweden, Switzerland, the Netherlands, USA and the United Kingdom. Currently, a total of 38 European member firms are connected to Eurex US.

For further information, please feel free to contact Gabriele Ristau, T +49-69-211-15741, e-mail: Gabriele.Ristau@eurexchange.com.

EUREX SERVICES

New Version of Eurex MarginCalculator now Available – Margin Calculations for the Entire Product Range of Eurex Clearing AG

The Eurex MarginCalculator – the computer-based training and simulation program offered by Eurex – has been thoroughly updated and expanded. It can be downloaded free of charge from the Eurex website.

Thanks to its revamped user interface and expanded functionality, calculating Eurex margin requirements using the Eurex MarginCalculator is now more comfortable than before, with more comprehensive coverage. New buttons for switching between, entering, updating and deleting records facilitate data maintenance. What is more, settings such as dividends and associated payment dates can be entered and customized.

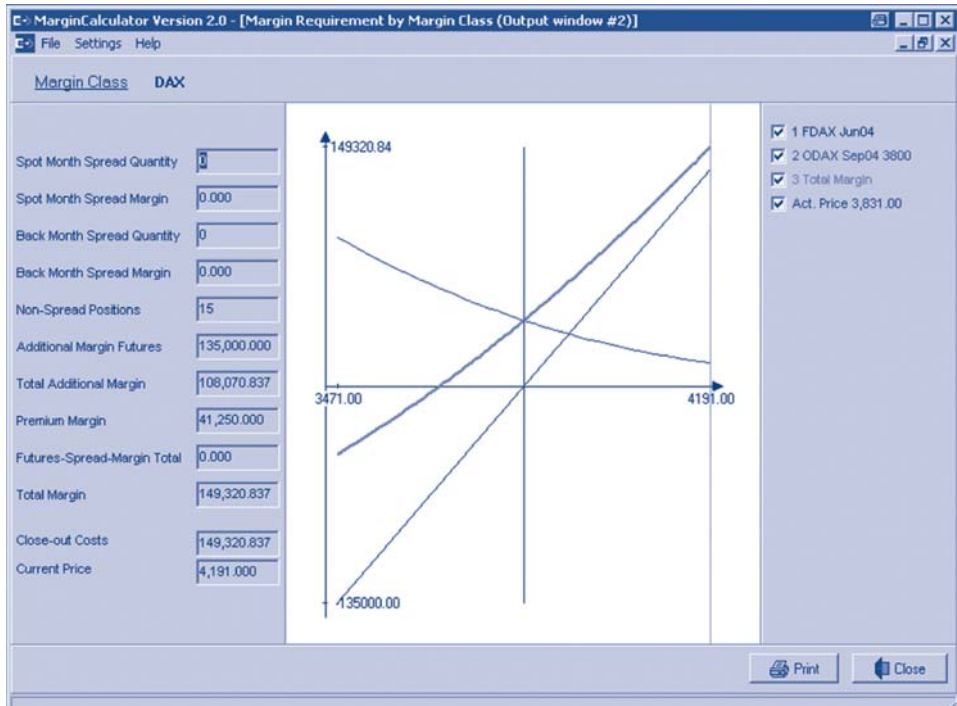

Another new feature is an import/export function. Using a specially-formatted Excel file which is installed alongside the Eurex MarginCalculator, open positions can be imported for calculation and exported afterwards. In addition, the current margin parameters and offset factors, as well as the Eurex MarginCalculator product database, can be downloaded from the Eurex website. Detailed product information is available within the Eurex MarginCalculator software, via the *Products* menu item.

Apart from the tabular display of margin requirements, broken down by margin type, users can choose to display the relevant risk situation graphically – a component that perfectly complements the comprehensive range of functional features provided by the Eurex MarginCalculator.

A 30-minute *Guided Tour* offers a precise, yet easy-to-use introduction to the applications and functionality of the Eurex MarginCalculator. Of course, you can also access individual chapters of the Guided Tour.

¹ Eurex US has been recognized by the French Minister of Economy, Finance and Industry pursuant to Article 1 of the French Decree No. 90-948 of October 25, 1990.

The Eurex MarginCalculator and the Guided Tour can be downloaded, free of charge, from the Eurex website at www.eurexchange.com > **Clearing & Settlement** > **Risk Based Margining**. A detailed explanation of the basics and the model used by Eurex to calculate margin requirements is provided by the Eurex Risk Based Margining brochure, which can be viewed at, and downloaded from www.eurexchange.com > **Clearing & Settlement** > **Publications**.

Functional Enhancements at a Glance:

- Margin calculations for all products settled by Eurex Clearing AG (derivatives, bonds, equities and repos)
- Entry of an unlimited number of positions
- Calculation of margin requirements on a portfolio level, including cross-margining
- Display of margin requirements in various currencies
- Data import and export in MS Excel format
- Current margin parameters (including offset factors) and product database available for download/import from the Eurex website

The Eurex MarginCalculator is also available on CD, at a unit price of EUR 19.00 (plus VAT and postage & packaging). To order it, go to Deutsche Börse's learning portal:

<https://trainingcenter.deutsche-boerse.com>.

Easier Access for Trading Participants from Gibraltar

Eurex commenced operations of its new Access Point in Gibraltar on August 2, 2004, thus facilitating access to its global liquidity network for all participants trading from there. Their reaction to this expansion of Eurex' technical infrastructure was enthusiastic. Local participants are convinced that in conjunction with the favorable tax regime, which has already attracted numerous proprietary traders to Gibraltar, the Access Point will further enhance the location's attractiveness.

"With its new Access Point, Eurex logically responds to the continuously rising number of participants and growing trading activities from Gibraltar," said Eurex CEO Rudolf Ferscha. "Access Points also allow us to connect new participants more quickly." At present, there are eight participants from Gibraltar trading on Eurex.

With a total of ten Access Points – technical nodes bundling local line connections and linking them to the central exchange host – located in Amsterdam, Chicago, Frankfurt, Gibraltar, Helsinki, London, Madrid, New York, Paris and Zürich, Eurex in fact operates the world's largest exchange network. As an alternative access option, trading participants are also able to connect to Eurex via Internet, using a so-called "Internet Access Point".

For any further information, please feel free to contact Afriyie Sarkodie-Mensah, T +44-207-862-72 18, e-mail: Afriyie.Sarkodie-Mensah@deutsche-boerse.com.

EUREX INSIDE

Eurex Trader Assistant Status Abolished

On demand of the Exchange Supervisory Authority of the State of Hesse (the regulatory authority responsible for Eurex Deutschland), the status of "trader assistant" was abolished with effect from January 1, 2004. A transitional period ending on June 30, 2004 was granted for all trader assistants active as at the beginning of 2004.

From January 1 through June 30, 2004 a total of 2,395 Eurex trader assistants were removed from the trading system; during the same period, a total of 1,566 Eurex traders were admitted, and 1,594 persons were registered as traders with preliminary admission.

Eurex would like to thank all exchange participants for their active collaboration, without which this ambitious project could certainly not have been realized within the period set.

Applicants can thus choose the admission method most suitable to them, according to their professional knowledge and experience, selecting the simplified admission procedure, the *Complete Exam* or the *Partial Exam*.

For any further details on the various admission options available, please feel free to contact our Customer Support, T +49-69-211-1 17 00, e-mail: Customer.Support@eurexexchange.com.

Exchange Council Election for Eurex on November 11, 2004

The election for the Exchange Council of Eurex Germany will take place on November 11, 2004. Election nominations can be submitted to the election committee until September 10, 2004.

All companies admitted to trading on Eurex Deutschland are eligible to take part in the election. This includes around 400 companies from 18 countries.

The Exchange Council is composed of 24 members. It is the highest controlling and supervisory body of the exchange. Its main responsibilities are to appoint and supervise the exchange's general management, as well as to issue the exchange rules, fee schedule, and the conditions for transactions on the exchange. The Exchange Council's term of office last three years.

All relevant information concerning the Exchange Council election can be found on the internet at www.eurexchange.com > About Eurex > Exchange Council Election.

Eurex Turns Over 75.5 Million Contracts in July

- Total volume year to date rises to 628 million contracts
- Turnover in Dutch stock options in the first seven months of 2004 up 30 percent year-on-year
- Eurex Bonds records a volume of EUR 10.8 billion

Approximately 75.5 million contracts were traded and cleared by the international derivatives market Eurex in July. This brings the total number of contracts traded in the first seven months of the year to 628 million contracts, an increase of approximately three percent compared to the same period last year (612 million contracts).

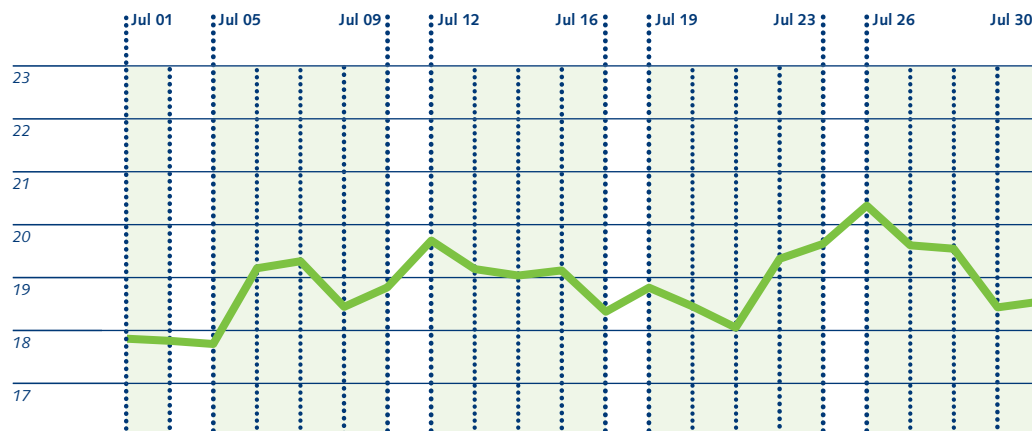

The strongest performance in July was delivered by the interest rate derivatives segment, which accounted for around 39 million contracts, or more than half of Eurex's traded volume. At 15.4 million contracts, the Euro-Bund Futures contract retained its position as the most successful product on Eurex. The Euro-Bobl Futures accounted for around eleven million contracts, while the traded volume of Euro-Schatz Futures contracts totalled around nine million.

36.6 million contracts were traded in the equity-based derivatives segment in July, 20.4 million of which were attributable to equity index derivatives and 16.2 million of which related to equity derivatives. The strongest performer in the equity index derivatives segment in July was the future on the Dow Jones EURO STOXXSM 50 Index, with around 8.6 million contracts traded. Trading in Dutch and French stock options remains strong: approximately 691,000 contracts were traded in the segment for Dutch stock options in July. Total trading in this segment in the first seven months of the year is up 30 percent on the same period in 2003. In July approximately 208,000 contracts were traded in French stock options. In the first seven months of the year trading in French stock options shows an increase of 128 percent on the same period in 2003. Approximately 2000 contracts were traded in futures on the Dow Jones Italy Titans 30SM Index on Eurex in the first ten trading days since the product was launched on 19 July.

The electronic trading platform Eurex Bonds, which rounds off Eurex's interest rate product range, recorded a volume of around EUR 10.8 billion (single counting) in July. 31 participants are currently connected to Eurex Bonds.
