

X-pand into the Future

Eurex The International Derivatives Exchange

Introduction of Additional Spanish, Dutch, French and
Belgian Equity Options

Launch: 19 May 2008

Eurex Equity Options: A Truly European Portfolio (I)

- n More than 200 equity options from ten different countries across Europe are available for trading on Eurex.
- n The range of equity derivatives is complemented by roughly 570 single stock futures from 17 different countries, denominated in four different currencies.
- n Over 374 million contracts traded in the equity derivatives segment in 2007, representing an increase of about 22 percent over 2006.
- n There was strong demand for Spanish equity options in February 2008; turnover grew by 65 percent compared to the previous month, reaching approximately 150,000 contracts.

Eurex Equity Options: A Truly European Portfolio (II)

- n Pan-European harmonization on corporate actions has removed any obstacles to trading in international equity derivatives at Eurex.
- n Eurex continues to focus on the increasing demand from participants for derivatives on attractive European equity options and introduces four Spanish, one Dutch, two French equity options and creates a new Belgian equity options segment with two existing and six new products.
- n Trading and Clearing fees (order book/OTC) for Spanish, Dutch, French, Belgian options amount to EUR 0.20 per contract. Market Maker rebates apply (EUR 0.04 for Regular/Permanent and EUR 0.02 for Advanced Market Making).

Eurex Equity Options Already Cover 98% of the Dow Jones EURO STOXX 50[®] Index Market Capitalization
