Any option that is so exercised shall be settled in cash. The Board of Management shall fix the price of the underlying security for purposes of such cash settlement. Upon expiration of the above period, open positions in the discontinued option series may no longer be exercised.

§ 16 Suspension and Discontinuation of Trading

All existing orders and quotes will be canceled. The resumption of futures and options trading in suspended contracts shall commence with a Pre-Trading Period. - (8) If an enterprise which has obtained a Derivatives Clearing License of Eurex Clearing AG for Direct Clearing Members and which furthermore is entitled to clearing transactions of affiliated Exchange Participants which do not have a Derivatives Clearing License, is excluded from futures and options trading at the Eurex Exchanges or is restricted to the trading of specified products respectively in accordance with this sub-part, Clause 3 shall apply mutatis mutandis to all Non-Clearing Members for which such Direct Clearing Member acts.

- (9) If an enterprise which is a Member of the Link Clearing House is excluded from futures and options trading at the Eurex Exchanges in accordance with this sub-part, Clause 6 shall apply mutatis mutandis to the Exchange Participants who are entitled via a Member of the Link Clearing House to participate in the clearing of transactions carried out at the Eurex Exchanges.
- (10) If an enterprise, which is a Member of the Link Clearing House or which clears its transactions concluded at the Eurex Exchanges via a Member of the Link Clearing House, is, pursuant to § 45, excluded from trading or restricted to the trading of specified products, the respective enterprises may be excluded from trading or restricted to the trading of specified products only until they can participate in the futures and options trading via another Clearing House that participates in the clearing as a Special Clearing Member according to the Clearing Conditions of Eurex Clearing AG or a Member of such another Clearing House or a General Clearing Member or a Direct Clearing Member.

5. Sub-Section Termination of Admission to Trading of Enterprises

§ 47 Resignation of Admission to Trading

- (1) The admission of an Exchange Participant at one of the Eurex Exchanges may be terminated upon notice of resignation to the Board of Management of the respective Eurex Exchange. If an enterprise is an Exchange Participant at both the Eurex Exchanges, the notice of resignation of admission to trading shall be sent to both the Eurex Exchanges at the same time.
- (2) However, such declaration of termination shall take effect only after the conditions of § 49 have been satisfied.

§ 48 Termination of Admission to Trading by the Exchange

§ 49 Consequences of Termination of Admission to Trading

If an Exchange Participant's admission to trading is terminated or revoked by the Board of Management of the respective Eurex Exchange, such Exchange Participant shall be obliged to close its positions or transfer them to other Exchange Participants within a period prescribed by the Board of Management of the respective Exchange; furthermore,

such Exchange Participant must cancel all its orders and quotes in the Eurex Exchange system and may not open any new positions. Such Exchange Participant shall ensure that its customers are able to transfer their positions to another Exchange Participant. If such Exchange Participant fails to meet these requirements within the prescribed period, the Board of Management of the respective Eurex Exchange shall be entitled to transfer those positions onto another Exchange Participant provided that the required consent to such transfer has been given, or to cancel the orders and quotes and to close the positions of such Eurex Participant. The admission to trading of such Exchange Participant shall terminate only after the fulfilment of the requirements provided for in this paragraph and of all obligations owed to the clearing house and / or the relevant Clearing Member.

6. Sub-Section Exchange Trader

§ 50 Admission as an Exchange Trader

- (1) Exchange Traders shall be admitted upon application by the respective Eurex Exchange if they are reliable and have the necessary professional qualifications. The professional qualifications shall be presumed if evidence of the necessary technical knowledge and experience is provided which qualifies the applicant for options and futures trading at the respective Eurex Exchange. In particular, the passing of an Eurex Exchange Trader examination shall constitute evidence of the necessary technical knowledge.
- (2) The admission procedure for Exchange Traders is regulated by the Admission Regulations for Exchange Traders at Eurex Deutschland.
- (3) The rules and regulations contained in the Admission Regulations shall apply to Eurex Zürich *mutatis mutandis*.
- (4) On Eurex Deutschland or Eurex Zürich respectively, a person may be authorized to act as an Exchange Trader for no more than one company.
- (5) An Exchange Trader without residence or habitual residence within the country must specify to the Board of Management in his application for admission an authorised Agent for Service of Process within the country. If he fails to do so, any written correspondence addressed to the Exchange Trader shall be deemed to have been received by the Exchange Participant on the seventh day after being posted; a document sent electronically by E-Mail shall be deemed to have been received on the third day after being sent. This shall not apply if it is certain that the document has not reached the Exchange Trader at all or has been received by the Exchange Trader at a later point in time.

**§ 51 Suspension of an Exchange Trader's Admission to Trading /
Exclusion from Trading of an Exchange Trader**

- (1) If a justified suspicion or certainty exists that any of the conditions for admission specified in the Exchange Rules was not satisfied or has subsequently ceased to be satisfied, the Board of Management of the respective Eurex Exchange may order the suspension of the respective Exchange Trader's admission to trading for a maximum time period of six months. Upon expiry of such time period, a decision on the revocation of admission shall be taken according to § 52.
- (2) The admission to trading of an Exchange Trader shall be suspended for the duration of the admission of the company for which the Exchange Trader is concluding transactions at the Exchange.
- (3) The Boards of Management of the Eurex Exchanges shall furthermore be authorized to temporarily Exchange Traders from futures and options trading if and for so long as they disturb the orderly conduct of trading, violate applicable rules or fail to comply with orders issued by the Board of Management.

§ 52 Termination of an Exchange Trader's Admission to Trading

- (1) The admission of an Exchange Trader shall be terminated upon his submission of an appropriate declaration of resignation to the Eurex Exchanges or through an appropriate declaration by the enterprise for which the Exchange Trader is concluding transactions at the Eurex Exchanges. Such declaration is to be submitted in writing in the form specified by the Eurex Exchanges.
- (2) The Boards of Management of the Eurex Exchanges may terminate an Exchange Trader's Admission to Trading by resignation or revocation of such Admission to Trading. The Boards of Management shall revoke the admission to trading if such admission to trading has been suspended for six months and if reasons for ordering a suspension of the admission to trading continue to exist.
- (3) The admission of an Exchange Trader shall also terminate upon termination of the admission of the company for which the Exchange Trader is concluding transactions at the Eurex Exchanges.

V. Section Access to the Exchange-EDP

1. Sub-Section Technical Connection to the EDP System

§ 53 Requirements

- (1) The EDP-System of the Eurex Exchanges may be accessed by internet as well as by leased line. The Eurex Exchanges may determine an access point for connection to the Network of the Eurex Exchanges. The technical requirements

(hardware, software, Network parameters, Network areas etc.) for the respective connection variants shall be determined by the Management Boards of the Eurex Exchanges. It is required for all connection variants to the Eurex system that, by the establishment of such connection, the system of the Eurex Exchanges - particularly trading and clearing - is not interfered with. The system load produced on the EDP system of the Eurex Exchanges by individual Exchange Participants can be measured by the Eurex Exchanges and if necessary for reasons of system security or for other serious reasons, can be limited through technical means. Each Exchange Participant undertakes to ensure that it, according to the laws and regulations applicable to it, is entitled to connect to the EDP system of the Eurex Exchanges and to execute trading and clearing at the Eurex Exchanges.

- (2) The Eurex Exchanges may check the configuration and the Network parameters of the Exchange Participants at any time and request the correction of diverging values. In the event of changes becoming necessary, the Exchange Participant is obliged to upgrade the technical standard of its Participant Front End Installation according to the technical requirements specified by the Eurex Exchanges within the time period set by the Eurex Exchanges. The Exchange Participants shall, upon request by Eurex Deutschland or Eurex Zürich respectively, be obliged to grant access to their technical infrastructure used to connect to the EDP System of the Eurex Exchanges for purposes of technical inspection by the Eurex Exchanges. This shall not be applicable to customer relevant data.

§ 54 Installation of Participant Front End Installations

- (1) All locations with Participant Front End Installations, if not employed in emergencies or for the purpose of participating in technical simulated tests must in principle be installed at the locations of the Exchange Participant and should be configured redundantly in order to increase failsafe mechanisms. The Exchange Participant itself shall be responsible for the software which uses the interfaces for accessing the EDP System of the Eurex Exchanges and must ensure that the software functions according to the rules and regulations of the Eurex Exchanges. The Exchange Participant shall be responsible for the utilization of the Participant Front End Installations.
- (2) Upon receipt of prior notification from an Exchange Participant or from an applicant for Exchange admission, the Boards of Management of the Eurex Exchanges may permit the installation and the operation of a Participant Front End Installation at the business premises of a third party, if the application of and compliance with the provisions of the rules and regulations of the Eurex Exchanges and supplemental conditions thereto are ensured, in particular in respect of such third party. By means of appropriate agreements concluded with the third party, the Exchange Participant or applicant for Exchange admission shall secure that the third party grants the Eurex Exchanges the right to inspect the business premises of such third party at all times for the purpose of determining compliance with the requirements for the installation and operation of a Participant Front End Installation.

- (3) An Exchange Participant may apply for the connection of several Participant Front End Systems. The Eurex Exchanges may limit the number of Participant Front End Systems applied for by an Exchange Participant, to the extent that such action is necessary for reasons relating to system performance or for other serious reasons. To the extent that Participant Front End Systems are installed in the United States of America, the connection to the EDP system of the Eurex Exchanges must occur through a System of the Exchange Participant, to be used exclusively for this link from the United States of America; the use of such connection is compulsory.
- (4) The provision of § 33 remains unaffected.

2. Sub-Section Access to the Exchange-EDP by Individuals

§ 55 Application for Access Codes

- (1) In order to access the electronic trading system, each company admitted as exchange participant shall be assigned a user ID by the Board of Management; such ID may only be used by the respective company. Based on this user ID, the exchange participant shall, upon application, be assigned personal user IDs and codes for all persons supposed to get access to the system of the Eurex Exchanges. The Board of Management shall be notified of the names of the persons as well as user IDs.
- (2) Exchange traders as well as other persons using the electronic trading system (e.g. back-office personnel, safety officers) may be allowed access to the electronic trading system. Personal user IDs and codes may only be used by the person they have been assigned to. Codes may not be disclosed to third persons.
- (3) Only admitted Exchange traders of the exchange participant shall be permitted to use the system of the Eurex Exchanges to transfer orders for conclusion of futures and options transactions.

3. Sub-Section Technical Requirements

§ 56 Software

- (1) To the extent required for the respective connection variant to the system of the Eurex Exchanges, the Eurex Exchanges shall arrange for the provision of the application software to the Exchange Participants. The Eurex Exchanges shall specify the respective versions of the operating system software valid at the time and used for the operation of the Participant Front End Installations, including all necessary components. An Exchange Participant, or any third party contracted by the Exchange Participant, may only use the current version of the application software as made available upon instruction of the Eurex Exchanges and may neither alter nor copy such software without the consent of the Eurex Exchanges. The foregoing shall not apply to the production of copies of the application software

if such copies are produced solely for data storage purposes. Each Exchange Participant is responsible for the installation of the application software on the components of its Participant Front End Installation.

- (2) If Exchange Participants intend to connect Third Party Software to a programmable interface of the Eurex system, the Exchange Participants are required by the Eurex Exchanges to assign an electronic identifier to this Third Party Software before connecting it to the programmable interface, observing the Eurex Exchanges' instructions as to the systematic composition of such identifier and to have the Third Party Software registered at the Eurex Exchanges. The registration of Third Party Software at one of the Eurex Exchanges shall be deemed a registration at all Eurex Exchanges.

The Exchange Participants shall ensure that the identifier assigned to Third Party Software will be sent together with each transmission to the Eurex system, when the registered Third Party Software communicates with the EDP system of the Eurex Exchanges via the programmable interface. In case the Eurex system is impaired by the Third Party Software connected to the programmable interface, the Eurex Exchanges may prohibit the connection of such software with immediate effect.

§ 57 Extent of Use of Data Transmission Equipment

An Exchange Participant may not use for any other purposes the data transmission equipment of the Network of the Eurex Exchanges which serves trading and clearing on the Eurex Exchanges without the prior written approval of the Eurex Exchanges. However, the Eurex Exchanges reserve the right to use their data transmission equipment also for trading and clearing on other institutions.

4. Sub-Section Technical Emergency

§ 58 Measures upon Technical Problems

- (1) During technical disruptions, the Boards of Management of the Eurex Exchanges may suspend or restrict access to the EDP system for one, several or all Exchange Participants, regardless of whether such problems appear at the Eurex Exchanges or at one, several or all Exchange Participants. The Boards of Management of the Eurex Exchanges may resume trading or re-commence after an interruption, even if one or several Exchange Participants still do not have access to the system of the Eurex Exchanges, if in the opinion of Boards of Management of the Eurex Exchanges an orderly market continues to exist or is once again possible.
- (2) Exchange Participants are obligated to inform themselves about technical requirements and changes by means of the media made available by the Eurex Exchanges. The Eurex Exchanges shall, to the extent possible, inform the Exchange Participants without undue delay of any technical problems. In case of technical problems of the EDP system of the Eurex Exchanges, Exchange

Participants are obligated to grant access to their business premises in which Participant Front End Systems are installed to the Eurex Exchanges or Third Parties engaged by the Eurex Exchanges for problem resolution.

- (3) In the event of the suspension of trading on the basis of technical problems, the Eurex Exchanges shall place the Exchange system on “halt status”, so that no more inputs can be effected by the Exchange Participants in the system.
- (4) The resumption of trading after a trading suspension pursuant to the foregoing regulation shall begin with a new Pre-Trading Period pursuant to subsection 1.3 of the Conditions for Trading on Eurex Deutschland and Eurex Zürich. Subsequently, trading will proceed consistently with the general provisions of the Conditions for Trading.
- (5) The Eurex Exchanges shall inform the Exchange Participants without delay of the reduced time of the trading period.
- (6) In the event that the system of the Eurex Exchanges is non-functional for a long period of time, the Boards of Management of the Eurex Exchanges shall declare a technical emergency and shall determine, if necessary, alternative trading and clearing methods.
- (7) In the event that the Participant Front End System or other EDP system of a Exchange participant is non-functional, the Boards of Management of the Eurex Exchanges may, upon request, enter data into the electronic trading system on behalf of such Exchange participant. In this case, the Eurex Exchanges will verify the legitimation for data entry on the basis of the active user ID notified to it. As alternative to the legitimation regulated in Clause 2 by way of active user ID, the Board of Management arranges for a PIN number to legitimate a exchange participant for usage of the “mass deletion” functionality. Exchange participants have to declare vis-à-vis the Boards of Management of the Eurex Exchanges in writing their choice of the PIN procedure.
- (8) The Eurex Exchanges may require the Exchanges Participants to provide information and submit documents if this is necessary in order to prevent or solve technical problems.

5. Sub-Section Special Functions in Trading and in the System

§ 59 Order Routing Systems

- (1) After making written application and receiving approval thereof from the Boards of Management of the Eurex Exchanges, an Exchange Participant is entitled to connect an Order Routing System via a defined interface if the following prerequisites are fulfilled:
 1. Before being channelled into the trading system, the orders transmitted via Order Routing System shall pass an electronic filter which is installed in the

Participant Front End System, which checks and releases orders for further transmission according to parameters defined by the Exchange Participant.

2. The filter shall be allocated an approved Exchange trader who is responsible for the definition of parameters and the control and monitoring of the filter, and whose personal user ID has been submitted by the Exchange Participant to the Boards of Management of the Eurex Exchanges in writing.
3. An Order Routing System may only be fed with order for exchange transactions. It is not permitted to enter, change and erase quote, quote requests and cross requests.
4. [kept free]
5. The Exchange Participant has to ensure that all users of the Order Routing System operated by such exchange participant have access to the Exchange Rules of the Eurex Exchanges as well as the Conditions for Trading at the Eurex Exchanges. Such access may be ensured in particular by way of providing a website on which aforementioned Rules and Regulations can be viewed by the users. In addition, all users of the Order Routing System operated by the Exchange Participant have to be informed by such Exchange participant about the obligatory compliance with and consideration of the Rules and Regulations of the Eurex Exchanges pursuant to Clause 1, in particular about the provisions contained therein "Pre-arranged trades" and "Cross-Trades" in the futures trading. Users within aforementioned meaning are all natural and legal persons. In case of legal persons being users of the Order Routing System operated by the Exchange Participant, such Exchange Participant has to commit the users to ensure that the natural persons acting on their behalf and using the Order Routing System have access to the Rules and Regulations of the Eurex Exchanges named in Clause 1 pursuant to Clause 2 and that they will be informed about the obligatory compliance with and consideration of such Rules and Regulations of the Eurex Exchanges pursuant to Clause 3.
6. In case of a violation against the provisions of the Exchange Rules for the Eurex Exchanges in their respective valid version and the Conditions for Trading at the Eurex Exchanges by a user of the Order Routing System, the Exchange Participant operating such system shall immediately give the respective user a written warning stating the respective violation and shall point out that such user will be excluded from using the Order Routing System for at least 20 Exchange days in case of another violation.

In case of another violation, the Exchange Participant operating the Order Routing System shall take measures for the immediate exclusion of the respective user from further usage of the Order Routing System for at least 20 Exchange days.

The Exchange Participant operating the Order Routing System has to fulfil the obligations pursuant to Clause 1 and 2 at the latest when the Eurex Exchanges have informed him about a user of the Order Routing System

operated by him having violated against provisions of the Rules and Regulations named in Clause 1. The Exchange Participant shall notify the Boards of Management of the Eurex Exchanges in writing about the exclusion of the respective user from using the Order Routing System, stating the period of exclusion.

In case the user is a legal person, the provisions of Clause 1 to 4 apply with the proviso that they apply exclusively for the natural persons acting on behalf of the legal persons and using the Order Routing System operated by the Exchange Participant, as far as they have violated against the provisions of the Rules and Regulations of the Eurex Exchanges named in Clause 1. In case of an additional installation, as the case may be, an installation of quote machines, electronic eyes and/or third party software, respectively, which comes along with the connection of an Order Routing System with the EDP system of the Eurex Exchange, this intention shall also be notified unrequested in writing by the Exchange Participant vis-à-vis the Boards of Management of the Eurex Exchanges.

- (2) If the Boards of Management of the Eurex Exchanges permit a Exchange participant to use order routing systems, such Exchange participant shall be responsible for ensuring that the order routing facility is used properly, for the designated purpose and in accordance with the provisions of exchange law. This also applies to the use of order routing systems by third parties who are not admitted to the exchange and who were authorised by the Exchange participant to do so. Should the Exchange participant fail to comply with these requirements, the Boards of Management of the Eurex Exchanges shall restrict or revoke the permission to use an order routing system.
- (3) The forwarding of trading data and information from the EDP system of the Eurex Exchanges via an Order Routing System by an Exchange Participant to third parties requires the respective consent of the Boards of Management of the Eurex Exchanges according to § 23 of the Exchange Rules for Eurex Deutschland and Eurex Zürich. The consent of the Boards of Management of the Eurex Exchanges vis-à-vis the Exchange Participant who is operating the respective Order Routing System is particularly deemed to be given, if the relevant Exchange Participant has concluded a respective Market Data Dissemination Agreement with Deutsche Börse Group on the prices of the Eurex Exchanges.
- (4) The Boards of Management of the Eurex Exchanges may revoke an authorization for connection of an Order Routing System via a defined interface if
 1. the prerequisites for the authorization have not been fulfilled, in particular if the authorization has been granted upon false or incomplete information of the Exchange Participant; or
 2. if the prerequisites of the granting have ceased to apply retroactively; or
 3. if an Exchange Participant or a user of the Order Routing System operated by the Exchange Participant continually and permanently violates against

provisions or if an orderly Exchange trade by way of operation or usage of an Order Routing System is not or cannot be guaranteed any more.

§ 60 Automated Trading

Upon special application by an Exchange Participant, the Boards of Management of the Eurex Exchanges may permit the connection of Quote Machines and/or Electronic Eyes to the EDP system of the Eurex Exchanges through the programmable interfaces made available via the Participant Front End System, provided that the Exchange Participant continuously ensures that the Quote Machines and/or Electronic Eyes

1. are installed at the locations of the Exchange Participant admitted to futures and options trading and
2. are given parameters which correspond to at least one admitted person (Exchange trader) for the Eurex Exchange Participant and
3. are controlled by at least one such person during the course of the trading day.

VI. Section Trading Hours and Determination of Prices

§ 61 Trading Hours and Trading Periods

Trading in the electronic trading system may be realised between 7.30 a.m and 10 p.m. plus the duration of a possibly to-be-conducted final auction (trading hours).

Trading shall be realised in four consecutive periods: Pre-Trading Period, Opening Period, Trading Period and Post-Trading Period as defined in the Conditions for Trading at Eurex Deutschland and Eurex Zürich. The commencement and the end of such individual periods shall be determined by the Board of Management of Eurex Deutschland or Eurex Zürich for each options or futures contract admitted. Opening and Trading Period must be within the trading hours.

All orders and quotes which have been entered into the EDP system until the end of the trading period determined by the Boards of Management of the Eurex Exchanges and which match with one another are deemed to be executed during the trading period, even if the matching of such orders and quotes according to 4.5.4.1 should occur at a time after the end of the trading period due to the transactions still to be processed by the EDP system. The Board of Management of Eurex Deutschland or Eurex Zürich may change the Trading hours and the commencement of the individual periods on any particular exchange day to the extent necessary to maintain orderly trading conditions or for reasons relating to the Eurex Exchange system.

§ 62 Determination of the Exchange Price

Exchange prices shall be determined through the EDP system of the Eurex Exchanges. The Trading Surveillance Office of Eurex Deutschland and the Independent Surveillance Office of Eurex Zürich shall ensure that the exchange prices are determined in an orderly manner. No official exchange price determination shall take place.

§ 63 Determination of the Opening Price (Principle of Maximizing Executions – Meistausführungsprinzip)

The opening price shall be determined, as of a time to be determined by the Board of Management of Eurex Deutschland or Eurex Zürich, on the basis of both limited orders and market orders and quotes contained in the EDP system of the Eurex Exchanges and shall be the price at which the largest possible number of contracts of such orders and quotes may be executed (Principle of Maximizing Executions – Meistausführungsprinzip).

§ 64 Determination of the Closing Price (Principle of Maximizing Executions – Meistausführungsprinzip)

A closing price may be determined for certain future transactions by the Board of Management of Eurex Deutschland and of Eurex Zürich respectively, as of a time to be determined by the Board of Management of Eurex Deutschland or Eurex Zürich (Closing Auction) respectively, on the basis of both limited orders and market orders and quotes contained in the EDP system of the Eurex Exchanges and shall be the price at which the largest possible number of contracts of such orders and quotes may be executed (Principle of Maximizing Executions). The Closing Auction is merely intended to determine the Closing Price; however, it shall not terminate the Trading Period with regard to all products.

§ 65 Matching of Orders

- (1) During the Trading Period, prices will be determined through the matching of orders and quotes at the respective best bid and ask prices; in the event that prices are identical, orders and quotes will be matched in the order in which they were entered into the EDP system of the Eurex Exchanges. Market orders will be given priority. In the case of market orders for options contracts, the price may not be higher or lower, as the case may be, than the least favourable quote for the relevant option series. Market orders for futures contracts will only be executed within a price range to be determined by the Board of Management of Eurex Deutschland or Eurex Zürich. As far as the Board of Management of Eurex Deutschland and the Board of Management of Eurex Zürich respectively have not decided anything different in particular cases the EDP system of the Eurex Exchanges does not fix any closing prices. The details for the determination of prices shall be set forth in the Conditions for Trading at the Eurex Exchanges.
- (2) In deviation from Paragraph 1, the prices for the products specifically identified for this purpose in part 2 of the Conditions for Trading at the Eurex Exchanges will be

determined through the matching of orders and quotes at the respective best bid and ask prices but solely by means of priority accorded on the basis of price (Pro Rata Matching Principle). Under Pro Rata Matching, all orders entered in the order book with the same price limit will be executed on the basis of the percentage share that they represent of the total order volume available at such limit. Details pertaining to the Pro Rata Matching Principle are set forth in number 2.2 paragraph (6) of the Conditions for Trading at the Eurex Exchanges. Paragraph 1 Clauses 4 through 6 apply accordingly.
