Implied Volatility

For each series an implied volatility is defined. This volatility is calculated on the basis of the average implied volatility of the daily settlement prices on the ten exchange days preceding the announcement of the offer (30 January 2020 to 12 February 2020). The same volatility will be used for Call and Put.

Interest Rate and Dividend

For calculation of the fair value implied interest rates will be used. The following dividend data are applied for the calculation of the implied volatility and are used for determination of the fair values, provided the settlement date of the contracts precedes the ex-date.

Dividend amount in EUR	Ex-date
0.18	16 05 2020
0.18	16 05 2021

Generally and effective immediately, no more new series in the Eurex options on shares of RIB Software SE will be introduced. Series with no open interest will be deleted shortly.

We will keep you informed about the further procedure whenever changes or new information in the course of the transaction render this necessary.
