### 3. Building Block Requirements

#### 3.1. Basis Block Requirements

In order to receive the Liquidity Provider rebates pursuant to Sec. 2 above, the following quotation requirements shall apply:

	IPPL	IPLX	IPS2
<b>Quotation Period:</b>	09:00 – 17:15 CE(S)T		
<b>Required Coverage:</b>	80%		
<b>Maturity Range:</b>	Only the BTP-Bund IPS based on the front month needs to be quoted.	Only the Bund-Buxl IPS based on the front month needs to be quoted.	Only the Schatz-BTS IPS based on the front month needs to be quoted.
<b>Minimum Quote Size/ IPS Maximum Spread</b>	<p>The IPS Maximum Spread depends on the leg ratio of the respective Inter-Product Spread as this impacts both the price level and the spread at which the IPS should be quoted. It shall be calculated based on a Maximum Spread and an IPS Spread as follows:</p> <p>For the Maximum Spread Liquidity Providers may choose to quote either 10 contracts on the bid and ask side with a maximum spread of 0.09 percent or 5 contracts on the bid and ask side with a maximum spread of 0.05 percent Liquidity Providers may switch between both opportunities intra day</p> <p>The Maximum Spreads will be added to IPS Spread that is implied from the leg instrument's futures prices at 9:00 a.m. CE(S)T, or if not available the first bid/ask thereafter, on the first day a newly introduced IPS is listed for trading according to the following rule:</p> <p>IPS Bid = Bid (Leg Instrument 1) x IPS ratio (Leg Instrument 1) – Ask (Leg Instrument 2) x IPS ratio (Leg Instrument 2)</p> <p>IPS Ask = Ask (Leg Instrument 1) x IPS ratio (Leg Instrument 1) – Bid (Leg Instrument 2) x IPS ratio (Leg Instrument 2)</p> <p>The resulting IPS Spread is:</p> <p>IPS Spread = IPS Ask – IPS Bid</p> <p>Should the IPS Spread take on a negative value, then it will be considered as zero. The resulting IPS Maximum Spread for each IPS is finally determined as:</p> <p>IPS Maximum Spread = Maximum Spread + Max (0 ; IPS Spread)</p> <p>IPS ratios will be published prior to the listing of a new IPS expiry month on <a href="http://www.eurexchange.com">www.eurexchange.com</a></p>
