# Eurex Clearing's C7 release 4.0 migration newsflash IX

## Update of Member documentation and production readiness

**Content**

## 1. Introduction

With circular 046/17 Eurex Clearing announced the introduction of C7 release 4.0. The release is planned for Wednesday, 4 October 2017 in simulation and Monday, 4 December 2017 in production.

C7 release 4.0 will be a mandatory release for all Clearing Members, Non-Clearing Members and Registered Customers of ECAG.

C7 release 4.0 plans to port the collateral management services functionality from the Eurex Classic system to the C7 infrastructure. In addition, enhancements to the current collateral management functionality will be made as part of C7 release 4.0.

Consequently, all participants of Eurex Clearing including **Listed, Repo, OTC, Bonds and Frankfurt Stock Exchange (FSE)**, that at are currently managing collateral via the @X-tract GUI will be required to migrate to the C7 Clearing GUI, in order to continue collateral management.

The migration of collateral management services to the C7 GUI will provide participants with a centralized access point for all C7 transaction, position and collateral management functions.

## 2. Update of simulation documentation

In preparation for the introduction of C7 release 4.0, Eurex Clearing has published the following documents on the Eurex Clearing website:
