</table>

* The minimum price change with regard to share futures with assigned group ID GB01 refers to Pence.

** The group ID as well as the cash market ID shall be assigned by the Eurex Exchanges according to the following table and shall serve, amongst others, the purpose of determining a market place for the price of the share underlying the contract.
2.6 Subpart: Contract Specifications for Options Contracts and Low Exercise Price Options on Stocks

The following subpart contains contract specifications for Options Contracts on stocks of stock corporations (stock options) and low exercise price options on stocks of stock corporations (LEPOs). Depositary Receipts (Certificates representing shares) shall be regarded as shares. Annex B subsection 2.6. provides an overview on any tradeable stock options and LEPOs as well as the contract size (subsection 2.6.1), terms (subsection 2.6.4) and price gradations (subsection 2.6.11).

2.6.1 Subject Matter of Contract

The Board of Management of the Eurex Exchanges shall determine the contract size of the relating product and shall notify all Exchange participation of any such decision. Subsection 2.6.10 shall remain unaffected.

2.6.2 Call Option (Call)

(1) The purchaser of a call option (Call) has the right to demand delivery of the shares underlying the contract at the stipulated exercise price.

(2) The writer of a call shall be required,

- generally on the third Exchange day
- in case of Options contracts and LEPOs on stocks with group ID DE11 and DE12 assigned in Annex B on the second Exchange day
- in case of Options contracts and LEPOs on stocks with group ID FI11 assigned in Annex B on the fourth Exchange day

...
in case of Options contracts on stocks with group ID FI11 assigned in Annex B on the fourth Exchange day
to pay the stipulated exercise price following exercise of the contract against delivery of the shares underlying the contract; this shall also apply if the exercise is first assigned to the writer on the Exchange day following the day of exercise.

(3) Subsection 2.6.3 shall not apply to LEPOs.

2.6.4 Term

(1) Stock Options are generally available at the Eurex Exchanges for the following terms:

- 12 months: up to and including the next, the second and the third succeeding expiration days and up to and including the next three succeeding quarterly expiration days (March, June, September, December)

- 24 months: up to and including the next, the second and the third succeeding expiration days and up to and including the next three succeeding quarterly expiration days (March, June, September, December) and up to the next two succeeding half-year expiration days (June and December) thereafter

- 60 months: up to and including the next, the second and the third succeeding expiration days and up to and including the next three succeeding quarterly expiration days (March, June, September, December) as well as up to the next four half-year expiration days (June, December) thereafter and up to the next two succeeding yearly expiration days (December).

An additional term shall be available for Options contract on stocks with group ID NL11 assigned in Annex B:

- 60 months (old cycle): up to and including the next, the second and the third succeeding expiration days and up to and including the next three succeeding quarterly expiration days (January, April, July and October) as well as up to the next four yearly expiration days (October).

Additional quarterly expiration days shall be available for options contracts on stocks with group ID ES11 assigned in Annex B:

- 60 months: up to and including the next, the second and the third succeeding expiration days and up to and including the next nine succeeding quarterly expiration days (March, June, September and December) and a following half-yearly expiration day (June, December) as well as up to the next two -yearly expiration days (December).

The Board of Management of the Eurex Exchanges shall determine the terms for each stock option pursuant to paragraph (1).
(2) LEPOs with terms of up to and including the next expiration days and and including the next two succeeding quarterly expiration days (March, June, September, December) are available at the Eurex Exchanges.

LEPOs on stocks with group ID NL11 assigned in Annex B with additional two terms including the next two succeeding quarterly expiration days (January, April, July and October) (old cycle).\(^8\)

2.6.5 Last Trading Day

(1) The last trading day of an option series shall be the last day on which such option series is available to Exchange Participants for trading and clearing through the EDP system of the Eurex Exchanges.

(2) The last trading day of a stock option or LEPO shall be the third Friday of the relevant month; provided that such Friday is an Exchange day on which the trading of the respective contracts is not excluded due to special provisions by the Management Boards of the Eurex Exchanges (e.g. holiday regulations); otherwise it shall be the Exchange day preceding such day on which trading of the respective contracts is not excluded due to aforementioned provisions.

If exercise in an option series pursuant to the provisions of subsection 2.6.12 paragraph (3) in case of Options contracts and LEPOs on stocks with group ID DE11 and DE12 assigned in Annex B is not possible on the day regulated in Clause 1 due to the adoption of a dividend resolution on such day, the last trading day of the respective contracts of this option series shall be the exchange day preceding such day on which the trading of the respective contracts is not excluded due to special provisions of the Management Boards of the Eurex Exchanges (e.g. holiday regulations).

In case of Options contracts and LEPOs with group ID IT11 and IT12 assigned in Annex B the last trading day shall be the day before the third Friday of the relevant month; provided that such day is an Exchange day on which the trading of the respective contracts is not excluded due to special provisions of the Management Boards of the Eurex Exchanges (e.g. holiday regulations); otherwise it shall be the Exchange day preceding such day on which trading of the respective contracts is not excluded due to aforementioned provisions.

2.6.6 Expiration Day

The expiration day of a stock option and a LEPO shall generally be the Exchange day following the last trading day.

If, in case of Options contracts and LEPOs on stocks with group ID DE11 and DE12 assigned in Annex B, the last trading day has been changed in accordance with the above rules (subsection 2.6.5 paragraph (2) sentence 2) due to the adoption of a dividend resolution, the expiration day shall be the second Exchange day following the last trading day.
2.6.7 Exercise Prices

(1) Option series of Options contracts may generally have the following exercise prices:

<table>
<thead>
<tr>
<th>Exercise Prices (EP) in EUR/CHF/USD</th>
<th>Exercise Price Intervals in EUR, CHF or USD for Terms ...</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>up to and including three months</td>

(4) The exercise price of a LEPO represents the smallest exercise price of an option series available in the EDP system of the Eurex Exchanges.

2.6.8 Number of Exercise Prices upon Admission of Contracts

(1) Upon implementation of the Options contracts, at least seven exercise prices are available for trading for each call and put for each maturity with terms of up to 24 months. Three of them are in-the-money, one is at-the-money and three are out-of-the-money.

Upon implementation of the Options contracts, at least five exercise prices are available for trading for each call and put for each maturity with terms of more than 24 months. Two of them are in-the-money, one is at-the-money and two are out-of-the-money.

(2) When introducing options contracts with group ID NL11 and NL12 assigned in Annex B, at least nine exercise prices are – in deviation to Paragraph (1) – available for trading for each call and put for each
maturity with terms of up to and including twelve months. Four of said twelve exercise prices are in-the-money, one is at-the-money and four are out-of-the-money.

When introducing options contracts with group ID NL11 and NL12 assigned in Annex B, at least seven exercise prices are – in deviation to Paragraph (1) – available for trading for each call and put for each maturity with terms of up to and including twelve months. Three of said twelve exercise prices are in-the-money, one is at-the-money and three are out-of-the-money.

(3) Subsection 2.6.8 shall not apply to LEPOs.

2.6.9 Introduction of New Option Series

(1) Option series of stock options with new exercise prices shall be introduced for an existing expiration month no later than at the beginning of the Pre-Trading Period of a given Exchange day in the event that the minimum number of exercise prices specified pursuant to number 2.6.8 in-the-money, at-the-money or out-of-the-money, based on the reference price (Chapter II, number 3.6.4 of the Clearing Conditions of Eurex Clearing AG) is no longer available.

(2) A new option series of stock options shall generally not be introduced if it would expire in five or less Exchange days, unless market conditions make such introduction necessary.

(3) Subsection 2.6.9 shall not apply to LEPOs.

2.6.10 Alterations of Exercise Prices und Expiration Days

The following subsection 2.6.10.1 shall generally determine the alterations of exercise prices und expiration days for all stock options. Any alteration of exercise prices as well as expiration days of options contracts on stocks with group ID CH11, and CH12 and 13 assigned in Annex B is determined in subsection 2.6.10.2. Any alteration of the exercise prices and the expiration days for LEPOs is determined in subsection 2.6.10.2.

2.6.10.1 Alterations of Contract Sizes, Exercise Prices und Expiration Days of Stock Options

(1) Exercise prices shall basically not be adjusted upon the payment of any dividends.

Dividends are also capital reductions by reduction of the nominal value of the shares if the company pays the amount of the reduction of the nominal value instead of a dividend or if the dividends are part of the regular dividends - as well as guaranteed cash compensations of subscription rights and other comparable rights offered instead of a dividend.

(2) Additional distributions, in particular extraordinarily high dividends, bonuses or other cash distributions, or dividends which are not distributed within the scope of the regular dividend policy or which are declared as non-regular dividend by the company (e.g. special dividends, anniversary bonus) shall not be deemed to be dividends within the meaning of paragraph (1). In the event of such distributions, the respective stock options contracts shall be adjusted. The adjustments of such options contracts shall be carried out via the R-factor procedure. The R-factor shall be calculated pursuant to a formula established by the Eurex Exchanges, such formula considering the amount of
the distribution. The adjustment of stock options contracts shall be carried out by multiplying the respective exercise price of the options contracts with the R-factor. In addition, the number of shares underlying the respective options contract shall be divided by the R-factor. Via application of the R-factor procedure, the original value of the adjusted stock options contracts shall be maintained.

For stock options with group ID RU11 assigned in Annex B, the following rules shall apply:

- In case the announcement of a distribution is executed after the due date of the dividend (record date) only, the relevant options series shall immediately be suspended from trading. The adjustment of the options series shall be carried out with effectiveness as of the next trading day.

- If a distribution is announced without indicating its amount and if such announcement cannot be expected before the record date, the relevant options series shall be suspended from trading on the record date. The adjustment of the options series shall be carried out on basis of the difference of the value of the volume-weighted average price of the underlying on the Exchange day before the record date and of the value on the record date. The adjustment shall become effective on the Exchange day after the record date.

- If a distribution is announced without indicating its amount and if such announcement takes place after the record date only, the relevant options series shall immediately be suspended from trading. The adjustment of the options series shall be carried out on basis of the difference of the volume-weighted average price of the underlying on the Exchange day before the announcement and the day of announcement. The adjustment shall become effective on the Exchange day after the day of announcement of the distribution.

When an option is exercised, the Eurex Exchanges will provide cash settlement for the fractional part of the new contract size.

The amount of such cash settlement shall be determined on the basis of the difference between the reduced exercise price of the option and the reference price (Chapter II, number 3.6.4 of the Clearing Conditions of Eurex Clearing AG).

(3) If subscription rights are granted, an adjustment of the relevant options contracts shall be carried out by way of the R-factor procedure described in Paragraph 2.

When an option is exercised, the Eurex Exchanges will provide cash settlement for the fractional part of the new contract size.

Paragraph (2) shall apply to for any cash settlement mutatis mutandis.

(4) In the event of capital increases out of the company reserves (Gesellschaftsmitteln), the number of shares underlying the respective options contract will be increased proportionally to maintain the proportion of the share capital represented by these shares. The adjustment of the relevant options contracts shall be carried out by way of the R-factor procedure described in Paragraph 2.
When an option is exercised, the Eurex Exchanges shall provide cash settlement for any fractional shares the new contract size may cover; in all other respects, shares and other fractional interests, if any, shall be delivered based on the new contract size. This shall also apply with respect to stock dividends and similar events.

Paragraph (2) shall apply to such cash settlements mutatis mutandis.

(5) In case of capital reductions, the exercise prices and the standard contract size of stock options contracts shall remain unchanged if the capital is reduced by decreasing the nominal value of the shares.

If a reduction of capital is realized by a reduction of the nominal value of the shares in order to pay back the nominal capital to the shareholders, the adjustment of the relevant options contracts shall be carried out by way of the R-factor procedure described in Paragraph 2, provided that such capital reductions are accomplished independent of the payment of the dividend.

If a reduction of capital is realized by redeeming or consolidating shares, the number of shares covered by a contract shall be reduced proportionally to the proportion of the reduction of the share capital. The exercise price of the respective options contracts shall be simultaneously increased to a value such that the original value of the options contracts remains unchanged.

(6) In the event of stock splits, the exercise prices of stock options shall be reduced in proportion to the split rate. The contract size and / or the position size shall be modified in a ratio such that the option holder's original position remains unchanged.

(7) If shareholders are offered a conversion of shares in case of mergers or acquisitions, the options contracts will be adjusted, provided that the transaction has been effectively executed. A transaction is deemed executed effectively as soon as it is entered in the respective register (in case of merger) or in case the irrevocable result of an offer is announced by the acquiring company. The options contracts shall be adjusted with effect from the day on which the compensation specified in the conversion offer is available to the shareholders.

The options contracts of the target company can be adjusted provided that the compensation of the acquiring company specified in the conversion offer can be delivered via the central custodians or delivery locations recognised by Eurex Clearing AG, that derivatives can be traded on this underlying and that trading of the offered shares or of other rights on an Exchange determined by the Eurex Exchanges is possible.

If the compensation exclusively consists of shares or shares plus a cash interest, the adjustment is carried out via the R-factor method. The shares underlying the contract shall be replaced by the shares offered in the conversion offer under consideration of the relevant conversion ratio.

If the compensation is exclusively carried out in cash, the term of the option contract ends with effect from the date described in 2.6.10 paragraph 7 clause 3. Options contracts whose expiry date is after the close of trading shall be settled by their theoretically fair value. The same applies if the compensation consists of shares and cash compensation and if the cash interest exceeds a value of
67 % at the point of announcement of the offer; and if the prerequisites according to 2.6.10 paragraph 7 clause 4 are not given.

The theoretically fair value shall be determined in using the Cox-Ross Options model. The volatility which is defined for determination of the fair value, is the average value of the implied volatilities of the daily settlement prices on the ten trading days prior to announcement of the takeover bid. As an alternative, the Eurex Exchanges consult a group of at least five Exchange participants and determine the average implied vola on basis of the information obtained from these Exchange participants. Further information regarding calculation of the fair value is available in the Eurex User Manual System Overview and Information Manual.

(8) If a corporate action within the meaning of the aforementioned provisions is exercised but not regulated or covered by the provisions, the Management Boards of the Eurex Exchanges will adjust the respective options in order to maintain the original contract value, to guarantee orderly market conditions and to ensure the clearing and settlement of the contracts. In case a corporate action is exercised which is not regulated by the provisions of Number 2.6.10.1 the Eurex Exchanges will also adopt a regulation which aligns to such provision. The Eurex Exchanges shall inform the Exchange Participants of the intended measures.

(9) With exercise of stock options whose contract sizes have been adjusted in the course of a corporate action, the Eurex Exchanges make a cash compensation. With exercise, the cash compensation is always provided for the fractional part of the new contract size. The cash compensation is determined by the difference between the reduced exercise price of the option and the reference price (Chapter II, number 3.6.4 of the Clearing Conditions of Eurex Clearing AG).

(10) Amendments to the contract sizes and exercise prices pursuant to paragraph 1 to 7 result in an introduction of new series according to Numbers 2.6.8 and 2.6.9.

With corporate actions (paragraph 1 to 7) all orders and quotes listed in the order book in the respective options series will be deleted by the Eurex Exchanges. The Eurex Exchange inform all Exchange participants about an imminent cancellation.

(11) Regarding stock options with group ID RU11 assigned in Annex B, the price of the underlying required for adjustment of the exercise prices shall generally be calculated with the help of the volume-weighted average price.

2.6.10.2 Alterations of Exercise Prices and Expiration Days of LEPOs

The provisions of subsection 2.6.10.1 with respect to alterations in the exercise prices and expiration days of Swiss stock options shall also apply to LEPO subject to the following:

In the event of a corporate action, the exercise price for LEPO on Swiss stocks shall in any case remain unaffected. To maintain the original contract value, the corporate action shall be taken account of by adjusting the contract size accordingly.

2.6.11 Price Gradations
The price of a stock option or LEPO will generally be quoted with two or four decimal place. The smallest price change (Tick) shall be EUR 0.0005, EUR 0.01 or CHF 0.01 or USD 0.01. The Board of Management of the Eurex Exchanges shall determine the relevant decimal place and the smallest price change (Tick) and shall notify all Exchange participation of any such decision.

2.6.12 Exercise

(1) A stock option or LEPOs may be exercised by the purchaser on any Exchange day until the end of the Post-Trading Full Period (American style). The last day on which an option may be exercised shall generally be the last trading day (subsection 2.6.5).

(2) In deviation of Number 2.1.3 Number 1 and 2.6.12, the owner of a stock option with group ID RU11 assigned in Annex B may only exercise them on the last trading day (Number 2.6.5) of this option series until the end of the post trading full period (European style).

(3) This shall apply for Options contracts and LEPOs on stocks with group ID DE11 and DE12 assigned in Annex B except for the day preceding the ex-day. If a dividend resolution is passed on a day that is not an Exchange day, the options in question may not be exercised on the Exchange day preceding such day.
